

14 SEER Packaged Air Conditioner

All Airtemp® packaged units deliver dependable performance and their durable, attractive cabinetry complements your home's surroundings.

- **Efficient and affordable:** Meets Department of Energy 14 SEER efficiency standards.
- **Innovative:** All-aluminum Micro-Channel coils to optimize heat transfer and eliminate corrosion.
- **Optional electric heat:** Field installed 5–20 KW
- **Durable finish:** Galvanized steel for added strength and durability, featuring silicone-protected 1.5 mil polyester urethane finish that provides superior corrosion resistance, 50% better protection than standard outdoor finishes.
- **Attractive cabinet:** Classic dark gray styling for premium product appearance.
- **Double Protection:** Wire coil guard with earth-friendly epoxy, and never-rust mesh hail guard protect the unit's coil from accidental and weather related damage.
- **Easy access:** Cost conscious engineering reduces service time to maintain electrical and refrigerant components.
- **Raised corrosion-resistant drain pan:** Quickly drains water away from the unit.
- **Built to the highest standards for the American market**
All Airtemp® products are designed, assembled and repeatedly and thoroughly tested in North America.

Quality, Reliability and Value

10-Year All Parts Limited Warranty

Rock-solid warranty coverage to protect your investment. When you choose Airtemp® for your home comfort, your system comes with one of the best warranties in the business - 10 years on all parts.

1-Year Replacement Pledge

Outstanding Airtemp® products are worthy of outstanding protection. Should major component failure ever occur within the first year of operation, we will replace the product.

See warranty details for more information.

Cooling capacities 2 thru 5 tons

VP7RE Series

Single Packaged Air Conditioner, Single Phase

VP7RE 14 SEER

2 thru 5 Ton Units

Cooling: 23,800 to 56,000 Btuh

The VP7 Series single packaged air conditioners are high efficiency self contained cooling units that can be installed on a slab. Heater kits are available as accessory items. Units are ETL and ETLc listed.

3.5, 4 & 5 ton rear-view shown

WARRANTY

- This product offers a 10-year all-parts limited warranty.
- This product offers a 1 Year Replacement Pledge to replace the unit if the compressor fails in the first year of operation, to the original owner.
- Consumer product registration required for 10 year All Parts Warranty and Replacement Pledge within a limited period of time after the installation. See current warranty document or visit our consumer web site www.airtempvac.net for warranty details.

FEATURES and BENEFITS

- **Quality Compressor:** State of the art compressor is standard equipment.
- **Hi Pressure Switches:** Ensure long compressor life.
- **Micro-Channel Coils:** Both indoor and outdoor all aluminum coils are designed to optimize heat transfer, minimize size and cost, and increase durability and reliability. Eliminates corrosion.
- **ECM Blower Motor:** Fixed torque energy efficient brushless DC ECM motor.
- **Permanently Lubricated Condenser Motor:** A heavy duty PSC motor for long lasting reliability and quiet operation. Requires no maintenance and is completely protected from rain and snow.
- **Low Voltage Transformer:** Includes 3 Amp fuse to protect low voltage circuit.
- **Liquid Line Filter Drier:** Factory installed at a convenient location for service.
- **Designed Using Galvanized Steel:** With a polyester urethane coat finish. The 950 hour salt spray finish is 1.5 mil thick and resists corrosion 50% better than comparable units.
- **Compact Footprint and Profile:** Make the VP7 Series easy to install and transport.
- **0" Clearance:** To combustibles on duct side of the unit allows for installations in tight areas.
- **Wire Guard Coated with Earth Friendly Epoxy and Plastic Mesh Hail Guard:** A guard that will never rust and protects the units coil from being damaged.
- **Raised Base Pan:** Allows water to drain away from the unit.
- **Easy Compressor and Control Access:** Designed to make servicing easier for the contractor, access panels are provided to all controls and the compressor from the side of the unit. Hi/low service ports allow access without disrupting operation.
- **Easy Access:** To the evaporator coil for cleaning, blower assembly removal and general maintenance.
- **Drain Trap:** Design optimizes drainage capabilities.
- **Removable Top Grille Assembly:** Allows ease of service to the fan motor.
- **Optional Electric Heat:** Field installed 5 – 20 KW.
